The following gifts have been received since the opening Jan 20

The number visiting the Libary during these months cannot be readily estimated, besides the readers + students, the number of casual visitors to the Libary, many of them residents of other cities, is large, when there is added to these, the book-takes 13223, it is not difficult to conjecture that the Public Libary is a busy place and is exerting a wide influence.

Thanking the Board for the consideration shown during the trying time of reorganization, this report is respectfully submitted.
