Gentlemen;

Herewith find order for one of your freight elevators, which you will please manufacture at once as per the enclosed measurements. You will also please furnish the angle irons for the construction of a light weight cover or trap door for the second floor which will be so constructed as to raise with the car when car goes up and will come down with car and cover the hatchway as the car lowers.

You will note the platform is changed to the long way between posts and narrow way front and back, this is as our client wants the machine made. Trusting this gives you all desired information and that you will ~~order~~ make a prompt shipment, I am

Yours Truly,

W.J.Zitterell.
